# Deputy Assistant Administrator for Pesticide Programs GS-0301-15

#### Introduction

This position is located in the immediate office of the Office of Chemical Safety and Pollution Prevention (OCSPP) at the U.S. Environmental Protection Agency (EPA). The Deputy Assistant Administrator (DAA) for Pesticide Programs serves under the direction of the Assistant Administrator (AA) for Chemical Safety and Pollution Prevention. The incumbent provides expert advice to the AA and other OCSPP and Agency management on high-profile pesticide program activities and serves as an advocate for the Agency's work in this area. The DAA for Pesticide Programs works with the Director of the Office of Pesticide Programs (OPP) to develop and implement policies and procedures affecting pesticide programs. The OPP Director will manage the implementation and integration of these efforts within the pesticide registration and registration review programs.

The proposed incumbent of the position, requested for Schedule C, exception will not be able to adequately perform their duties without being privy to the political, personal, and management philosophies of the Assistant Administrator. A confidential relationship of a Schedule C nature is imperative since the incumbent will speak for the Assistant Administrator and, as such, will be expected to reflect their supervisor's philosophies in conversations with leading figures of the government, business and other groups. The incumbent will also be obliged to present the views of the Assistant Administrator in correspondence and other communications with Agency managers and program officials.

# **Major Duties and Responsibilities**

1. The Deputy Assistant Administrator for Pesticide Programs serves as a key advisor on matters regarding the Endangered Species Act and other high-profile pesticide program activities such as collaborating with other Offices to develop environmental justice related program augmentations. The incumbent provides regulatory and programmatic expertise on pesticide regulations under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), the Pesticide Registration Improvement Extension Act (PRIA4), and key parts of the Food Quality Protection Act (FQPA), and Federal Food, Drug and Cosmetic Act (FFDCA). The DAA for Pesticide Programs also works collaboratively with the Director of the Office of Pesticide Programs to develop and implement policies and procedures. The incumbent is recognized as an expert and authoritative representative of the Office and provides advice and expertise on developing, managing, evaluating and implementing pesticide program strategies, policies and directives.

- 2. As a trusted authority on pesticide programs, the DAA advises the Assistant Administrator on a variety of topics including overall program goals, objectives, policies, and strategies. In coordination with the OCSPP top management, the incumbent shall coordinate the development and application of OCSPP policies.
- 3. Performs complex trend analysis of existing pesticide program policies and activities to identify trends and developments which appear to significantly influence long-range plans. When making recommendations based on their analysis, the incumbent considers the broad impact of program plans, as well as OCSPP and OPP goals and mission objectives. These recommendations improve efficiency and program management. Identifies and coordinates activities, major policy, or process issues requiring management attention.
- 4. Identifies and performs in-depth analyses of issues, analyzes the consequences of adopting various proposals and policies, develops options and alternatives, and provides recommendations through written and oral presentations. Conducts extensive investigation and analysis of largely undefined factors and conditions to determine the nature and scope of problems, and to devise and recommend solutions. In particular, analyzes the impact of policy directives from within the Agency, the Office of Management and Budget, and other Federal agencies. Develops recommendations for problem resolution and monitors the implementation of such resolutions. Recommendations are based on analyses, reports, general information, and other sources as supplemented by a continuous awareness of Agency policies, issues, and programs. Collaborates with senior leadership, providing advice on the need for changes in methods, procedures, and policies to strengthen programs or processes.
- 5. Presents OCSPP and OPP viewpoints to external groups and promotes closer relationships between OCSPP/OPP and appropriate outside organizations in areas of mutual benefit. Works with political leadership across the Federal government to provide policy support for pesticide program activities. Actively participates in conferences, meetings, or presentations involving problems or issues of considerable importance. Keeps abreast of policies, programs, and procedures of the Agency and is knowledgeable of major programs and organizational relationships. Represents or negotiates on behalf of Agency decision-makers with experts in working groups across the Federal government and with EPA partners and stakeholders (State, Tribal and local governments, environmental organizations, and others). Represents the AA at meetings, conferences, and seminars sponsored by the Agency and/or external organizations. Serves as a representative of the program to convey points of view, desired emphasis and goals in matters falling within the incumbent's area of responsibility. Contacts typically have diverse viewpoints, goals, or objectives requiring the incumbent to achieve a common understanding of the problem and a satisfactory solution by convincing them, arriving at a compromise, or developing suitable alternatives.

- 6. Undertakes assignments on projects of special concern to the Assistant Administrator. These assignments are usually broad-based, of an Agency-wide nature, and often involve relationships with external stakeholders. Establishes contacts at the highest levels and develops a strong network of external and internal peers in order to develop information, evaluate findings, provide consultative feedback and prepare reports incorporating conclusions and specific recommendations. The incumbent often justifies, defends, negotiates, or settles matters involving significant or controversial matters including recommendations affecting major programs. The incumbent has responsibility to influence managers or other officials to accept and implement findings and recommendations despite contacts often having conflicting objectives and limitations to available resources. Provides information to the Assistant Administrator through personal briefings.
- 7. Performs other duties as assigned.

# **Factor Levels**

## Factor 1 - Knowledge Required by the Position

Level 1-8; 1550 pts.

Mastery of program and organizational analysis principles, methods, practices techniques, and analytical methods. Skill in applying this mastery in developing new methods and approaches in planning, integrating and evaluating programs for the Agency. Knowledge and skill to advise personnel inside and outside the Agency, as well as senior leadership and decision-makers, on issues of developing, communicating, or enhancing program matters involving interaction with all of the Agency's public, both nationally and internationally.

Knowledge and skill in applying management and executive concepts and principles sufficient to direct or assist the AA, the OPP Director and senior management in managing or directing pesticide program activities.

Mastery of advanced management and organizational principles and practices along with a comprehensive knowledge of strategic planning, organizational design and analysis sufficient to perform long-range and short-range program planning and strategy development, and recommend implementation strategies which cut across all programs of OCSPP and have potential wide-ranging impact on program functions, personnel, facilities and budget. Ability to plan and manage multiple high-level and high-stakes projects with short deadlines; sets priorities.

Comprehensive knowledge of laws, regulations, policies, and issues relating to pesticide programs; EPA's and OCSPP's mission, program responsibilities and the current status or decisions and policies; sequence of timing of key program events and milestones; and specialized terminology applicable to the work sufficient to develop recommendations, objectives or programs to address the most urgent needs of the AA; and discuss and explain controversial aspects of policy with the AA and OCSPP management.

In-depth knowledge of relationships with other governmental and non-governmental entities and public and private institutions; ability to target data for historical research related to OCSPP operations and relationships with outside parties; and analyze data collected.

Ability to perform policy analysis; knowledge of methods of evaluating the worth of program accomplishments; and ability to recommend action for improvement in the effectiveness of relationships between OCSPP /Agency mandates and goals of stakeholders sufficient to develop, extend or modify the purpose, function or direction of national level programs. Skill in written communication sufficient to organize and summarize large amounts of information; and write quickly and clearly on technical issues for both technical and nontechnical audiences.

Skill in oral communication sufficient to make presentations to senior leadership, and represent OCSPP in public fora.

#### **Factor 2 - Supervisory Controls**

Level 2-5; 650 pts.

Incumbent is a recognized authority in the analysis and evaluation of programs and issues and is subject only to administrative and policy direction concerning overall project priorities and objectives. Incumbent is typically delegated complete responsibility and authority to plan, schedule, and carry out major projects concerned with the analysis and evaluation of programs or organizational effectiveness. The supervisor provides administrative guidance solely in the form of general legislative, mission or policy direction. Incumbent has the highest degree of independence in seeking optimum solutions to problems. Completed work is broadly reviewed for adherence to mission or legislative direction and for assurance that broad policy or program objectives are fulfilled. Findings and recommendations are normally accepted without significant change.

## Factor 3 – Guidelines Level 3-5; 650 pts.

Guidelines consist of laws, regulations, and directives, Agency, OCSPP and OPP policies, basic administrative policy statements concerning the issue or problem being studied, and may include reference to pertinent legislative history, related court decisions, State and local laws, or policy initiatives of Agency management. The incumbent uses judgment and discretion in determining intent and in interpreting existing policy and guidance for use by others within and outside the organization. The incumbent is recognized as an expert in the development and/or interpretation of guidance on program planning and evaluation.

#### Factor 4 – Complexity

Level 4-6; 450 pts.

The work consists of the analysis of broad functions and processes which may affect all OPP operations. Plans, organizes, and completes analytical studies involving the substance of key Agency programs that will enhance the ability of OCSPP to implement pesticide programs and policies, measure their effectiveness and enact change to processes as necessary. There is extreme difficulty in identifying the nature of the issues or problems and in planning, organizing, and determining the scope and depth of the study. The nature and scope of issues are largely

undefined. Difficulty is also encountered in separating the substantive nature of programs or issues into their components and determining the nature and magnitude of the interactions, and in discerning the intent of legislation and policy statements and determining how to translate the intent into program actions.

#### Factor 5 - Scope and Effect

Level 5-6; 450 pts.

Performs very broad and extensive work assignments related to Agency programs which are of significant interest to the public and Congress. The programs typically cut across or strongly influence a number of Agencies. In many cases, studies are of major importance to each of several Departments and Agencies, and there may be disagreements about which Department, Agency, or Region within EPA has primary responsibility for significant aspects of the function. Studies frequently involve extensive problems of coordination in fact-finding and in reviewing and testing recommendations in interested Agencies or with outside groups. Recommendations involve highly significant program or policy matters and may have an impact on several Departments or Agencies and may result in substantial redirection of federal efforts or policy related to major national issues. Results of work are critical to the mission of the Agency or affect large numbers of people on a long-term, continuing basis.

#### **Factor 6 - Personal Contacts**

Level 6-4; 110 pts.

Personal contacts are with high-ranking officials both inside and outside of the Agency, including the highest levels of Agency leadership, professional and administrative personnel throughout EPA and Agency and Office stakeholders. Contacts are also with persons outside the Agency which may include Congressional contacts, political officials, consultants, contractors or business executives. Contacts include the head of the Agency, Regional and program officials at all managerial levels.

#### **Factor 7 - Purpose of Contacts**

Level 7-d; 220 pts.

The purpose of contacts is to justify, defend, negotiate, or settle matters involving significant or controversial matters including recommendations affecting major programs. Incumbent has responsibility to influence managers or other officials to accept and implement findings and recommendations. Contacts typically have diverse viewpoints, goals, or objectives requiring the employee to achieve a common understanding of the problem and a satisfactory solution by convincing them, arriving at a compromise, or developing suitable alternatives.

#### **Factor 8 - Physical Demands**

Level 8-1; 5 pts.

The work is primarily sedentary, although some light physical effort may be required.

#### **Factor 9 - Work Environment**

Level 9-1; 5 pts.

Work is typically performed in an adequately lighted and climate-controlled office. May require occasional travel.

**Total Points: 4090** 

GS-15 Grade Range: 4055 - up
